Large product categories of biscuits, soap, washing powder and refined oil dragged the entire consumer goods market down to single-digit growth last year. Biscuits, soap, washing powder and refined oil — which along with snacks make up the top five FMCG segments — grew between 4% and 10% last year, down from 15%-23% in 2012.

People become conscious about their health and hygiene which increase the requirements of this industry. On the other hand the soap and detergent face threats from due to difficult in keeping consumers loyal to Company's brand. Consumers are price sensitive and shift to other brand in view of promotional offers. Higher advertisement and promotional expenses required for better brand building.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2014

1. SIGNIFICANT ACCOUNTING POLICIES:

i. Basis of Accounting

The financial statements are prepared to comply in all material aspects with Indian Accounting Standards as notified by the Companies (Accounting Standards) Rules, 2006 issued by the Central Government in exercise of power conferred under section 642(1)(a) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on accrual basis. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

ii. Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known / materialise.

iii. Accounting Policies:

a. SALES:

Sale of goods is recognized at the time of dispatch of finished goods to the customers and is net of excise duty, sales return, rate difference and cash discounts. Consignment sales are recognized on receipt of account sales from the agents.

b. PURCHASES AND EXPENSES:

Purchases include cost of materials, transportation charges, Entry Tax and are net of refund of Sales Tax, credit availed under the Cenvat Scheme and State VAT during the year and other claims and discounts. Expenses on which Service Tax is charged are account for net of Service Tax.

c. RETIREMENT BENEFITS

- i) Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit & Loss of the year in which the employee has rendered services.
- ii) Post employment benefits are recognized as an expense in the Statement of Profit & Loss for the year in which the employee has rendered services. The expense is recognized at the present value of the amount payable towards contributions. The present value is determined using market yields of government bonds, at the balance sheet date, as the discounting rate.
- iii) Other long term employee benefits are recognized as an expense in the Statement of Profit & Loss for the year in which the employee has rendered services. Estimated liability on account of long term benefits is discounted to the present value using the market yield on government bonds as on the date of balance sheet.
- iv) Actuarial gains and losses in respect of post employment and other long term benefits are charged to the Statement of Profit & Loss.

d. DEPRECIATION:

Depreciation is provided on written down method at the rates specified in Schedule XIV of the Companies Act, 1956 on pro-rata basis. Asset costing up to Rs 5,000 each are fully depreciated in the year of acquisition. Lease hold Land is amortized over its Lease period.

e. FIXED ASSETS:

Fixed Assets are stated at acquisition cost less accumulated depreciation. Cost includes inward freight, duties, taxes and incidental expenses related to acquisition and installation incurred up to the date of commissioning of assets.

f. IMPAIRMENT OF ASSETS:

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss.

g. INVENTORIES:

- (i) Finished and Semi-finished goods produced by the Company are valued at lower of cost or net realisable value.

h. ACCOUNTING FOR TAXES ON INCOME

The accounting treatment followed for taxes on income is to provide for current and deferred tax. Deferred Tax resulting from the difference between book and taxable profits is accounted for using the tax rates and laws that have been enacted or substantially enacted as on Balance Sheet date. The Deferred Tax is recognised and carried forward only to the extent that there is a reasonable certainty that the assets will be realised in future.

i. INVESTMENTS

Long-term investments are carried at cost less provision, if any, for diminution in value other than temporary. Current investments are carried individually, at lower of cost and fair value.

j. BORROWING COSTS

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets.
